#### Education

1988-1992 Aarhus Kunstakademi

#### About

Workfield: Painting, installation and video.

Anne-Marie Pedersen is Educated at the painting section in Aarhus Kunstakademi 1988-1992. Debut in 1993 at Charlottenborgs Forårsudstilling with oil paintings on canvas. Consistently through the years unfolding, exploring and challenging painting in different ways: An "atomised" painting, that is split up and escalates into coloured pieces of glass hanging from the ceiling like a floating sculpture. And paintings that melt with video pictures in installatory works. In the paintings on canvas one will find "wild" brush strokes and colour stains. Nearly on their way to leave the canvases. - Which they finally do, in the work *Rrrooarr!*

Uncontrollable, chaotic and unpredictable aspects of life are thematically implied in many works. Even though all of us are intensely occupied trying to control and direct a kind of "Lauf der Dinge", where one incident takes over after the other in a long unbroken chain of incidents, nobody can elude the chaos that reality really is.

Anne-Marie Pedersen is a painter that has gradually drawn the painting out of it's frame and round and about in the room. Her installations always obviously refer to her starting point in the painting, not least the colour..

Anne-Marie Pedersen has exhibited or permanently installed works in DK, Japan, England, Germany, Australia, Norway and Hungary.
